

Smart-thinking  
garage door  
solutions

**VORTEX**  
GARAGE DOORS

## An ingenious alternative to traditional garage doors

Vortex Garage Door has the smallest headbox dimensions of any roller door to maximise the clear opening height of the garage, whilst still delivering outstanding style and the most secure independent security accreditation.

# SMALL ROLLING

Actual Headbox Size

165 mm

40-50% smaller roll zone than  
standard garage doors

# SECURITY

The Vortex Garage Door is independently tested and certified to Secured by Design and LPS 1175 issue 8, security rating B3 (SR2).

This makes it the most secure independently certified roller garage door on the market.

## Secured by Design

**Police Preferred Specification**

## Secured by Design

Secured by Design (SBD) is the official police security initiative that works to improve the security of buildings and their immediate surroundings.

LPS 1175: Issue 8  
Cert. No. 1396c

## LPS 1175 certified

LPS 1175 is the leading security assessment standard in the UK for physical security products, and is recognised by insurance companies and professional security consultants.
